Subject: Microsoft Settlement

This is in reference to the Microsoft Settlement...I am sick and tired of the mess that special interest groups are creating and feel that the government could best serve the people of this great nation by dropping everything. Microsoft has consistently given me all that I have paid for and so much that I didn't pay for. If I need an update for a Microsoft product that I use, they have always given me that update at no charge. Yes, they do charge me if I want to upgrade (like to Windows XP), but, it is my choice whether to upgrade or not. Microsoft is not forcing me to do something that I do not want to do and I for one am tired of people trying to tell me they are. I am a strong supporter for Microsoft and believe that they are serving all of my needs.

Sincerely,
Cliff Bristow
